Address: 107 Zahraa nasr city, Cairo , Egypt

Senior Web Developer Experienced web developer with over ten years of expertise, specializing in building robust, scalable, and high-performance solutions using the Laravel framework while following best practices and employing a test-driven approach in web development. Passionate about continuous learning and innovation, applying agile methodologies to solutions that exceed expectations.

WORK EXPERIENCE

Naqla

2016 - Present

Senior PHP Developer

Naqla is one of Egypt's leading logistics companies. My role involves designing, developing, and maintaining advanced web applications using Laravel.

Starwallet

2014 - 2016

Web Developer

At StarWallet, I contributed to developing web applications that incentivized social interactions through a reward-based system. I used PHP frameworks to implement these solutions.

Netservex

2010 - 2014

Web Developer

At Netservex, I focused on creating and maintaining web applications using open-source eCommerce solutions and content management systems (CMS). I contributed to several prominent websites, including culturewheel.com, beautystreet.com, and likeacolor.com.

EDUCATION

Ain Shams University

2008 - 2011

BSC in Computer Science

Graduated with expertise in programming, data structures, and software engineering.
